

2018 Global Energy Conference

By the numbers

Save the date for the 17th annual Global Energy Conference
June 5–6, 2019

The Global Energy Conference (GEC), a top industry event for KPMG, just concluded its 16th annual event. Each year, senior energy executives and luminaries gather to share insights and discuss key issues impacting the industry. This year's event titled "Powering the future with the next generation of energy" got to the heart of what executives are facing by focusing on the ways that companies can adapt to today's industry issues with an eye toward thriving in the future.
