

Starting a business in Finland

Our experts from different service areas work in a close cooperation, ensuring us to advise you with all the required matters before your company starts a business in Finland. We handle the registrations, apply for work permits for your employees (if needed), draft documents, are in touch with the local authorities and advice your company on the applicable legislation and practice.

Our services

- Guidance on employment legislation and practice (incl. advice on the applicable collective agreement)
- Drafting employment contracts
- Drafting statutory plans, company policies and internal guidelines
- Registration of a company
- Immigration services
- Social security services
- Tax registrations and VAT agent services
- Bookkeeping/financial accounting
- Financial statements preparation
- Tax compliance and statutory reporting
- Payroll services
- Other legal services

We can also act as an advisor after starting your business in Finland and as a reliable partner for the company's board and owners.
